About This Game

Encompassed is a spherical atmospheric puzzler. It is designed for mobile Virtual Reality, but it works really well on PC. Though it does not yet do virtual reality on this platform, it does bring the bulk of that experience to your home computer.

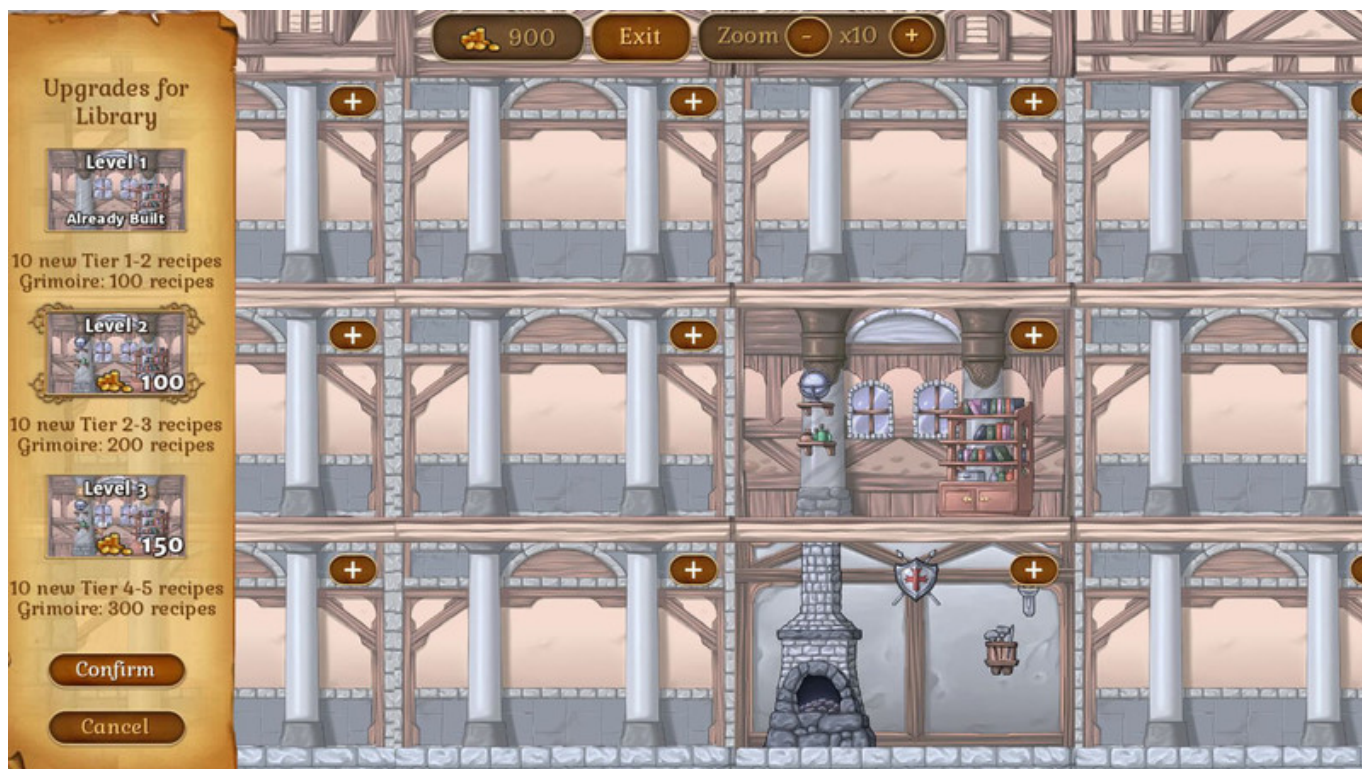

Following the story of a group of spirits performing the funerary rites for a planet, Encompassed engages you with interesting puzzles in 3D space, and culminates in conflict with the wandering and restless dead.

Encompassed borrows from predecessors in other mediums, with an immersive adaptive soundtrack, mysterious levels, and tutorials built into the game which are designed to not break the immersion. It is truly the first great mobile virtual reality atmospheric puzzler (or MVRAP for short) which you can experience on your own computer, albeit without the VR capability for now.

COMBAT TRACKER

Name	Init	HP	Temp	Wind
Phase Spider	5	32		

01. Large Chamber

A large, oddly shaped, and particularly foul-smelling chamber is accessed by a single corridor and holds the scattered skeletal remains of some unfortunate person, their rusted and lattered possessions spread across the floor, mixed with a layer of cobweb-covered rubble and rock. This chamber is the lair of a phase spider that will seemingly appear from nowhere (actually, the ethereal plane) to attack the PCs.

Encounter: Large Chamber

Map: Dungeons (Player)

Phase Spider

Large monstrosity, unaligned

Armor Class 13 (natural armor)
